Pyengana Dairy

Mature Clothbound
Cheddar Truckle 1.1kg

Origin: Tasmania
Classification: Farmhouse
Milk: Cow's Milk
Type: Hard Cheese
Form: Truckle
Item Code: 705518

Handcrafted using the finest milk from the pure pastures of the Pyengana farm.

Located in Tasmania's north east, cheesemaking at Pyengana dates back to the 1890s, and the lush pastures provide a rich diet for the herd of Holstein cows that graze there. The introduction of milking robots reflects how the dairy has brought innovation and tradition together to create their award-winning farmhouse cheddar.

The cheese is produced using the stirred curd method which develops a fine textured, crumbly body along with aromas of summer grass, herbs and honey. These small truckles are aged for just 6 months on pine shelves to develop long, sweet and nutty flavours without losing moisture.
