SELECTED BY WILL STUDD

Le Dauphin Double Creme 1kg

Origin: Auvergne-Rhône-Alpes, France
Classification: Artisan
Milk: Cow's Milk
Type: White Mould
Form: 1kg wheel
Item Code: 700845

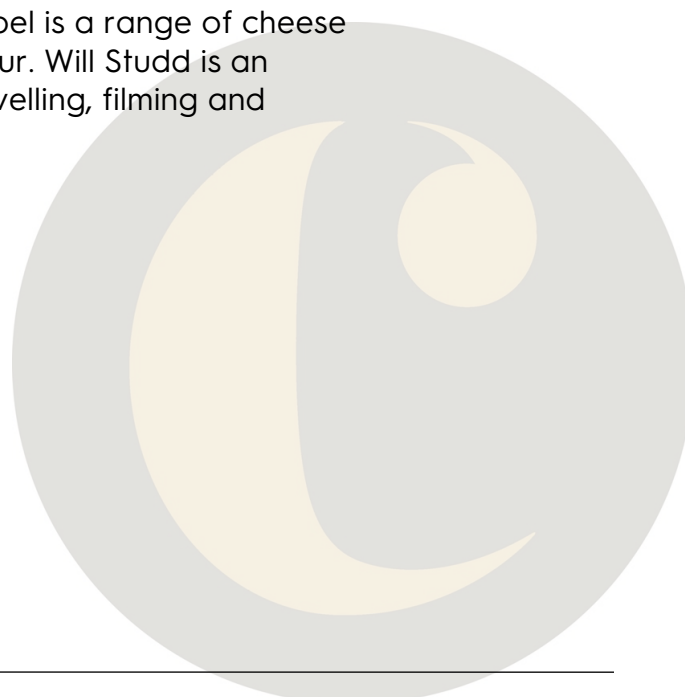

This unusual hexagonal cheese takes its name from the term once used to describe the heir apparent to the throne of France.

Made from rich cow's milk collected from the beautiful green mountain pastures surrounding the Rhône Valley, it was specially created for Will using a combination of modern techniques and a careful selection of traditional surface moulds.

The wooden box is important because it protects the cheese and creates a unique micro-environment for maturation. Best enjoyed fully ripe when exceptionally soft, silky, and deliciously creamy.

The philosophy behind the 'Selected by Will Studd' label is a range of cheese with the finest provenance, texture, aroma, and flavour. Will Studd is an international cheese expert who has spent his life travelling, filming and writing extensively about cheese around the world.
