Tarago River Cheese Company Jensen's Red 1.5kg

Origin: Victorian
Classification: Farmhouse
Milk: Cow's Milk
Type: Washed Rind
Form: 1.2kg Wheel
Item Code: 702632

Named after co-founder and head cheesemaker Laurie Jensen, this washed rind cheese has a blend of over 20 different cultures that work with natural milk flora to create a complex cheese. Named after the local river, the Gippsland dairy produces a popular range of handmade farmhouse cheeses with milk from their herd.

During maturation, each wheel is carefully washed and turned, promoting even ripening and development of the sticky, orange bacterial rind. The combination of moulds and 'b' linen bacteria create a strong yeasty aroma and rich savoury flavours. When fully ripe, the aroma is sweet and yeasty whilst the centre is dense and creamy with a flavour often compared to those other great Australian favourites - vegemite and beer..
