In small batches, using family recipes handed down for 4 generations and ingredients such as locally produced honey and the highest quality fruits and nuts, the Stamekovic family produce Roladas.

Star Food Roladas are gluten free and their condensed sweetness is the perfect contrast to the richness of cheese, making them a welcome addition to any cheese board.

The addition of local honey not only adds a touch of sweetness to this cranberry and pistachio Rolada, it also softens the natural tartness of the cranberries making it a wonderful match with aged goat's milk cheeses and blues.
