Woombye Cheese Co.

At Woombye Cheese Company they are passionate about cheese and the Sunshine Coast hinterland is the perfect place to make cheese, with its panoramic vistas of rolling green hills, creeks and bushland. This lush setting makes for happy cows; and happy cows produce the purest milk. All their milk comes from small local farms and is collected daily by the local milk supplier, pasteurised and then delivered to the factory in Woombye fresh every day. They create and produce all their cheese by hand, using traditional methods with care and experience.
