Organic Apple Saba 100ml

12 PER/CTN 8022717101773

The preparation of Saba dates back to the Roman age, with the Roman cook Apicius using it as a natural sweetener. It is made from 100% organic fruit that has been slowly cooked down and reduced. Flavours are fruit driven and less acidic than balsamic vinegar and it gives off an intense aroma of caramelised fruit.

SUGGESTIONS OF USE: It can be drizzled on fresh cheese or paired with grilled polenta. Mixed with crushed ice it becomes an excellent sorbet. Mix with ice cream, milk and ice for an energising shake. Note: saba mixed with warm milk is an excellent home remedy for sore throats.
